Assessments completed prior to admission to re-evaluate PCS hours awarded to the resident.

Why Refer to Helping Hands?

Seamless Admissions — We make your job easier. Our team handles intake efficiently with proactive communication throughout the process.

Higher Acuity Capable — We serve residents who need more assistance than smaller care homes can provide — 24/7 staffing, full dining, medication management.

Secured Memory Care — Our 15-bed memory care neighborhood provides specialized dementia care in a safe, secured environment.

Family-Centered Approach — We keep families informed and involved. Regular updates, open visiting, and transparent communication.

Nonprofit Mission — As an ASHF community, our mission is compassionate care — not profit margins. Every decision centers on resident well-being.

Medicaid Accepted — We accept Medicaid/Special Assistance recipients, ensuring access to quality care regardless of financial situation.
